

**AMENDMENTS TO THE SPECIFICATION**

Please replace paragraph [0047] of the published version of the present patent application (USPA 2005/0021859A1) corresponding to paragraph [0045] page 10 of the as-filed application with the following replacement paragraph:

Referring back to **FIG. 4**, at step **418**, the content converted by threads **120a-d** is compiled. Such converted content is preferably compiled into a single compilation file such as, for example, a tape archive (TAR) file. TAR is a file format well ~~known~~ known in the art of content provision that is suitable for distribution of compiled content over communications network **140**. For example, a plurality of PDF and WAV files may be compiled into a single TAR file.
